Objects: Roland AOHOUI's internship

Dear Sir or Madam

I, Pascal CHAUMONT, Industrialization Quality Assurance Manager at Safran Transmission Systems, had the opportunity to supervise and follow Roland AOHOUI's work during a 6-month student internship from September 2018 to february 2019.

During this internship, Roland was assigned several missions - such as the optimization of LEAP parts controls, or the creation of a capability database allowing the design office to optimize definition tolerances - missions that he was able to carry out with seriousness and autonomy.

This internship allowed me to judge Roland's qualities, in particular his ability to work in a team, his curiosity, his always very positive attitude,

All these reasons lead me to support Roland AOHOUI's application for an internship at your institution.

I remain at your disposal for any further information and I would be grateful if you would accept, Madam, Sir, the expression of my sincere greetings.

Pascal CHAUMONT

To Whom It May Concern:

It was my pleasure to have Roland Aohoui on my team and would recommend him for a position.

I am Matthew Melton, a Manufacture Engineer and Project Manager at Airbus. I have 18 years of experience in Aviation and have seen many young professionals throughout my career. Roland stands out among them.

During our time together, Roland displayed time and again his willingness to both learn new skills and take on challenges.

His positive attitude and willingness to take ownership of tasks and deadlines helped to ensure the success of our team and our project. I am confident that Roland would be a great fit for your organization. He will quickly learn the ways of working in your company and become an asset to assist the growth and success of your organization.

If you need more information or specific examples, please do not hesitate to contact me at (251)300-4906 or by email at matthew.melton@airbus.com.

Sincerely,

Matthew Melton
Engineering Project Manager
